

Mandatory requirements	Recommended requirements
<p>(a) Product Labeling Product labels should be as per the guidelines and should have information on: -</p> <ul style="list-style-type: none"> Country of Origin Details of Manufacturer/Marketed by Batch ID/Traceability Number <p>(b) TSCA Certification If the product contains chemical substances or if it is made of wood, exporters will need to obtain a TSCA certification as per the applicable Title of TSCA</p>	<p>CPSC Regulations CPSC sets standards for compliance of wide range of consumer products, both children's and non-children's products, e.g. Consumer Product Safety Act, Labeling of Hazardous Art Materials Act, Flammable Fabric Act, Poison Prevention Act, Federal Hazardous Substance Act etc. Majority of these standards provide product specification requirements and also labeling requirements.</p> <p>It is important for the exporter to verify whether their products are covered as per Regulated, Mandatory Standards and bans as suggested by CPSC, and hence need to adhere to the respective standard of regulations</p>

FAQs:

1. When & how often are the requirements needed?

- Compliance on above mentioned manufacturing standards are mandatory. These regulations are continuous requirements, hence exporters are required to follow the standards for every batch
- Labeling is required once for every product, before sending the shipment to USA
